

Lit
Fresh Faces for Inside Spaces

Lit brings you luxe interior neons to light up your walls. Each face is mounted on a painted wood panel that keeps electrical components safely out of sight. Turn up to full wattage or go down to a cozy glow with Lit's built-in dimmer, or kill the lights with the easy on/off switch. :P Smooth white neon will go and glow to keep your space well Lit. Every face is hand crafted in Brooklyn, New York by Alice Taranto in partnership with Precision Neon. A Henry Blank Project. (:
